

Lelit PL2S Giuletta

Compact, professional espresso machine, especially projected for those clients that have space problems but do not want to save on quality, reliability and functionality.

PL2S produces 4 espressos/2 coffees of 200 ml per group per minute and up to 60cl hot water per minute.

- 10 L copper boiler with transversal heat exchangers
- Direct water feed and thermo-siphon cycle system
- Rotative pump
- Mirror polished stainless steel front panel, bursted stainless steel for the back and lateral appliance body
- Extremely precise double manometer, multi-directional steam and water wands
- Big cup warmer
- Adjustable feet
- Ready in 30 minutes
